

Long Term Disability Leave

Frequently Asked Questions

If your disability leave extends beyond 26 weeks (180 days) and you are eligible, you will begin the long-term disability claim process during the 5th month of your leave.

Do I qualify for the long-term disability benefit?

If you are a regular, full-time, employee scheduled to work 30+ hours per week, you are eligible for long-term disability benefits once your short-term disability claim period ends (after six months).

I live in a state that provides state-funded disability benefits. Where do I find information?

Several states have enacted laws which provide wage replacement to eligible workers who need to take time to care for themselves or their families. If you live in one of these states, you may be eligible for wage replacement benefits while you are on a leave of absence. To see if you live in such a state and to find additional information about your rights and/or state-provided benefits, please see the Leaves of Absence tab on the Total Rewards & Benefits Portal or visit your state government website.

Please note that these benefits run concurrently with any other paid time off and may reduce your company-paid disability benefit. Your total benefits received cannot exceed 100% of your regular wages.

My doctor has postponed my disability release date. What should I do?

If your return-to-work date has changed, notify the Leave Administrator immediately by providing a note from your doctor reflecting your updated return date.

My medical leave will extend past six months. What happens now?

If you expect to be on disability leave for 180 days or more, it is important to begin the long-term disability application process around the 5th month of your short-term disability leave to prevent a lapse in benefit payments. Contact your Leave of Absence Administrator to begin the process. Your employer-paid long-term disability benefits are administered by Voya, our disability provider. You may file a claim with Voya by calling 877-236-7564 or visiting voya.com/claims.

What is my long-term disability benefit?

If your disability continues for more than 26 weeks and you are approved through that entire duration, your long-term disability benefit will begin in month 7. Payments will continue until you return to work, or you reach normal Social Security retirement age.

Long Term Disability Leave

Frequently Asked Questions

Your long-term disability benefit is 60% of your pre-disability income (maximum of \$15,000 per month). Pre-disability income is defined as gross income, including commissions and mileage, but excluding bonuses and overtime.

Will my current benefits elections continue to be active while I'm on leave?

Your benefits are terminated six months (180 days) from the start date of your leave. If you transition to long term disability, that means that you will be out of work for 6 months or more. As a result, you will no longer have benefits while on long-term disability. See the Termination of Benefits Summary for additional details.
